Offer No. 29

FEBRUARY 9th 1929

# HERBST BROTHERS

Established 1876

## SEEDMEN and PLANT BROKERS

42 South Street

New York, N. Y.

### Price List

(THIS LIST CANCELS ALL PREVIOUS QUOTATIONS)

#### Terms of Sale

We give for ourselves or our principals no warranty, express or implied as to description, quality or productiveness or any other matter of the seed, plants or bulbs we deliver, nor will we be responsible for the crop in any way. In no case shall we or our principals be liable for more than the value of the seed, plants or bulbs delivered.

**PAYMENT:** ON SEED net cash less 5% for unestablished accounts; others less 5% if paid within ten days or 60 days net.

ON NURSERY STOCK to be arranged at time of sale.

**PRICES** are for net weights, packing extra at cost.

#### Nursery Stock

Being purely BROKERS our sole interest is to secure for you the best grades of stock at the most advantageous prices and to find a market for your surplus. We buy the stock only of those growers who include in their published prices our brokerage. In many cases, however, we can name lower prices as growers desiring to move their stock give us confidential prices to be named only upon application.

Nurseries are invited to use these columns freely. Our brokerage is charged to the seller; buyers are under no expense. Stock purchased through us is always billed by the grower in his own name, direct to buyer. Our brokerage is earned upon perfecting sales contract acceptable to buyer and seller.

We endeavor to follow "Standardized Plant Names" and the Standards of the American Association of Nurseries. Observation of these simplifications will insure prompter service.

**WE HAVE BUYERS FOR** the following Nursery Stock in various sizes and ages. If you can offer attractive prices, do so at once, giving common and horticultural name, age, size and description of stock and price, including our brokerage.

**MAZZARD** Cherry 3/16 in.

**PEARS** Howell on French Roots 4-6 ft.  
Hood  
Pineapple

**ACER** palmatum atropurpureum  
" pseudoplatanus

**For Delivery after 1929 Crop**

Early maturing seeds are generally delicate in structure and of low vitality. The laws of Nature generally require that they be planted soonest possible after harvest. Let us have your order now so that we can ship them to you immediately after collection.
